EDUCATION

Indian Institute of Information Technology, Ranchi

B.Tech in Computer Science and Engineering

2023 – 2027

CGPA: 8.49/10

TECHNICAL SKILLS

Languages: C, C++, JavaScript, TypeScript, Python, SQL

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, RESTful APIs, Authentication & Authorization, WebSockets

Databases: PostgreSQL, MongoDB, Redis

Developer Tools: Git, GitHub, Postman, VS Code, Vercel, Render

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks

EXPERIENCE

Codtech IT Solutions Pvt. Ltd.

Jun 2026 – Aug 2026

Web Developer Intern

- Contributed primarily to the backend development of a full-stack E-commerce application using Node.js, Express.js, and MongoDB.
- Worked on RESTful APIs, server-side logic, and database operations for core application functionality.
- Implemented and integrated backend services and data flow to support key application features.
- Assisted with integrating backend services with the React.js frontend and implementing responsive UI components.

PERSONAL PROJECTS

InstantPoll — Custom Live Polling Application 🌐 🔗

Mar 2026

Tools: Node.js, Redis, Express, PostgreSQL, React, Socket.io, Tailwind CSS, JWT

- Architected a full-stack interactive polling platform, integrating Socket.io for real-time vote broadcasting and Redis for high-speed data caching to minimize database load during concurrent voting spikes.
- Engineered a secure authentication pipeline from scratch using bcrypt for password hashing and JSON Web Tokens (JWT) for protected API routing and session management.
- Designed and queried a relational PostgreSQL database schema to efficiently manage user identities, poll configurations, and persistent voting records.

Interview Platform — Real-Time Coding & Video Interviews 🌐 🔗

Jan 2026

Tools: Node.js, Express, MongoDB, React, Clerk, Stream SDK, Inngest, TanStack Query

- Built a production-ready real-time interview platform supporting live coding, video calls, chat, and secure interview sessions.
- Architected 1-on-1 interview rooms with participant limits, room locking, screen sharing, and recording.
- Designed and implemented secure REST APIs with Clerk authentication and role-based access control.
- Used Inngest background jobs to reliably sync users between Clerk and MongoDB, ensuring data consistency.

ACHIEVEMENTS & COMPETITIVE PROGRAMMING

Problem Solving — Solved 900+ algorithmic problems across various coding platforms

LeetCode Knight — Max rating 1860

CodeChef — Max rating 1607

Codolio Profile — codolio.com/profile/cksinha
